

LT-75

- Lockable 75 Ohm F-type terminator
- Nickel plated brass
- Excellent return loss

Overview

In CATV and SMATV cable networks 75 Ohm terminators are used for two reasons: to prevent reflection of RF-signals and the other is to prevent signal theft. In the first case a T-75 terminator can be used but in the latter case a lockable terminator should be used.

Specifications

Frequency range (MHz)	5 - 1000
Impedance (Ohm, typ)	75
Material	Nickel plated brass
Dimensions (mm)	27 x 16 (L x W)
Equipment approval	CE
